

Student Safety Agreement

I agree to behave responsibly in the laboratory which includes

- listening to my teacher and obeying all my teacher's instructions
- not eating or drinking in the laboratory
- not placing any laboratory glassware in my mouth
- not using laboratory glassware or other containers to store food or drink
- not storing chemical substances in food or drink containers
- not running in the laboratory
- not leaving my experiments unattended
- not returning decanted substances to their original containers
- correctly labelling containers used to store substances
- keeping my work area clean and tidy
- cleaning glassware and other containers thoroughly after use
- disposing of waste materials in the appropriate manner
- washing my hands thoroughly after completing practical work (experiments)

I agree to perform only those experiments authorised by my teacher.

I agree to dress appropriately for the chemistry laboratory which includes

- wearing closed in shoes
- wearing eye protection (safety glasses or safety goggles)
- wearing a lab coat or apron
- tying back long or loose hair
- removing long or loose jewellery
- wearing gloves if necessary

I agree to report all accidents and spillages immediately to my teacher, even if there is no obvious sign of injury.

I agree to learn the location of safety equipment in the laboratory.

I agree to learn all the safety rules applicable to working in the laboratory.

I have completed the Safety in the Laboratory Quiz¹ and achieved a mark of
